

Student Exchange Program-Outbound to the School of Engineering Department-level Partner Institutions Application Guidelines, AY2020 First Recruitment

I. Overview

The School of Engineering Department-level Student Exchange Program is a program in which an undergraduate or graduate degree student (hereafter “student”) is given the educational opportunity to take courses or receive academic advice at a partner university for a semester to a year.

The exchange program participants will remain enrolled at TU while they are enrolled at a partner university and take academic courses and/or conduct research activities. Students may transfer credits earned at a partner university to, or earn credits from, TU if certain requirements are satisfied. The approval of credit transfer requests is determined by each department. Make sure to consult on a possibility of study abroad with your supervising professor of your laboratory and credit transfer with professor in charge of the Academic Affairs of your major department prior to applying.

During the study period, the tuition fee at the partner university will not be collected in most cases, but payment to TU of the tuition fee is required.
